Dear Bill,

On behalf of my father, Pete, I would like to thank you for all your help and support during a most difficult time. Your kindness and encouragement were greatly appreciated.

In addition your professionalism and advice in planning for my mother's funeral was excellent. With little time you were able to coordinate all the arrangements.

Finally, your capability to restore my mother's wig and makeup to "life-like" status was outstanding! It provided us with great comfort to see her again in her normal presence. We will always treasure her that way.

Once again, thanks for a great job under the most difficult of times.
